Starter Pack

Starter Pack

For ages 5 and up

Our high-density modules can be connected with the velcro strips that they come with or can all be used separately to create a wealth of circuits with different heights and difficulties.

All of our material has been tried and tested by elite international athletes and has been used in national competitions.

The cases are non-slip and easy to clean, while the modules are easy to carry around with the side handles attached.

01 Wheel

A large circular module that can be used in a circuit, as a training obstacle or just for fun!

Size: 160x100x50cm

02 Rectangular blocks

3 blocks that can be used individually or combined to create heights of 70, 90, 100 or 130cm.

Sizes: 120x60x30cm
120x60x40cm
120x60x60cm

03 Trapezoid blocks

4 pieces that can be used individually or combined to create heights of 70, 90, 100 or 130cm.

Sizes: 150x40x30cm
150x70/40x50cm
150x100/70x50cm
150x70/40x50cm

04 Ramps

These ramps are really fun and can be used both flat or against a wall to create different inclinations and surfaces for wall-based Parkour moves.

Sizes: 200x100x60/15cm
200x100x90/15cm

Starter Pack

10 pieces in total

Perfect for new gyms or additions to widen your possibilities with training and challenges.
